

With All My Love

I know it's so outdated, so old-fashioned
But putting pen to paper does me good
You know I've always been a bit impassioned
So a letter suits me better than a message ever could

It's another rainy day here in Virginia
So I thought I'd take the time to drop a line
My Mary's still as lovely as the Springtime
And the kids are growing more like her and they're all doing fine

(Bridge 1)

You see it's hard to know exactly how I feel
I can never think of any words to say
But I know it's real important so I'm trying to let you know
That you didn't need to do it
Still, you did it anyway

What I mean is that I cherish all you've done
And I'd get it if you'd choose to walk away
But you didn't, you just stayed there with your body hanging down
'Cause you knew for me to know you
Well, there was no other way

(Bridge)

What I mean is that I treasure everything you mean to me
It's an honor that you chose to call me yours
Yet, I'll never understand why you would hang there on that tree
So, in closing, I can only say these simple words once more

(Coda)

Lord, I give my life to you
All I am and all I do
All that I could ever be
Ever grateful, every free
To my Father, dear
With all my love... from me
