

The Likes of You

It's December and my thoughts have turned to winter
To the chilling winds and the warmth of Nat King Cole
To the sights and sounds of the season in my old home town
And to the carols that can still excite my soul

But the Spirit of my recent Past reminds me
Something missing in this picture leaves me blue
May the Spirit of the Present lying underneath my tree
Be the spirit of my the Christmases I could spend with the likes of you

(Bridge 1)

The likes of you, the likes of you
You're the one that makes my Christmas wish come true
I think you knew I notice everything you do
'Cause I like what I'm like in the light of the likes of you

We've got chestnuts on an open fire, burning
Through the window tiny noses turning blue
And the choir on the corner keeps me yearning
For the joy of spending Christmas once again with the likes of you

(Bridge 2)

The likes of you, the likes of you
You're the one who can make this Christmas wish come true
I'm sure you knew that I'm loving everything you do
'cause I like what I'm like in the light of the likes of you

I really do, I admire everything you do
You see, I like what I'm like in the light of the likes of you
I really like what I'm like in the light of the likes of you
