

Sadducees Song

Copyright A Bear & His Music / Dave Hebert (BMI) 1978, 2024.

Sword is piercin' and his side's flowing red
Probably won't be long before the guy's finally dead
And judging by the crowd I think we moved just in time
With him away our lives again will be fine

Spreadin' all his lies and doing tricks just for show
Surely God had ended things like this long ago
People swore they saw the dead awake and come alive
It only goes to show some need a crutch to survive

[Chorus]

And some believe that Jesus will return from the grave
He'd always said he'd come to seek and to save
It's awful hard to save when you're in the tomb
So brother I prefer to not believe... How 'bout you?

I think we better put a guard 'round the site
We wouldn't want his men come and get him in the night
They'd take his body off and then they'd say, "He's alive!"
Let's not forget the people need protection from that jive

What's that you're telling me, the tomb is empty to the light of day
They say they saw a man that looked like Jesus walk away
I don't believe you really understand so don't you tell
You see, it's not important what is truth but what will sell

[Repeat Chorus]

How 'bout you? ('n you, 'n you, 'n you?)
That won't do
